KEY FEATURES

- Quick charging and better charge acceptance provide you extra backup even on longer power cut.
- Higher efficiency - Ampere hour efficiency is more than 95% .So you save on electric bill every time your inverter charges the battery.
- Special Selenium alloy grid, Casted at high pressure (100 bar) by pressure dye casting machine (PDC) for void free structure to provide longer life.
- 99.985% pure active material with finest quality.
- Quick charging and better charge acceptance provide you extra backup even on longer power cut.
- Product range is factory charged and has a very low self discharge ratio.
